

INSTITUTIONAL DISTINCTIVENESS

The college embarked on its journey during the British period in an era when access to education for a girl child was something unthinkable. The vision and mission statement of the college focuses on these key areas –

- Women's empowerment
- Character building
- Nurturing a responsible citizen
- Pursuit of excellence

Over the years, the college has never deviated from its vision. However, the most distinctive features of the college is to provide quality education to the most under privileged sections of our society. Among all colleges situated in the area, Mahila Vidyalaya Degree College can take genuine pride in the fact that percentage of SC/ST/OBC/Minority and low income group women students in it is the highest. Most of our intake is from those under privileged sections of society which have a very poor socio-economic and educational background. Any meaningful touching intervention poses additional challenge and requires sustained efforts through a very protective teaching methodology. Orientation counseling and extra classes are some of the strategies employed by the college to bring our intake at par with other institutions first. Great stress is child on interactive learning and students are encouraged to ask questions. Sports, events, debates, drama, workshops etc. are held at regular intervals to bring out the best in every student.
